Fixtures played in the morning pools were used to "rank" all teams based on performance, as follows:

- (1) Within each pool, the position of the teams was determined by these criteria, in this order:
 - (a) Highest matchpoints scored (2 for a win, 1 for a draw, 0 for a loss) - the "Pts" column
 - (b) Highest average gamepoints scored per match played - the "F/P" column
 - (c) Lowest average gamepoints conceded per match played - not recorded above but you can divide A by P yourself if you really want to check
 - (d) Coin toss
- (2) The teams originally finishing 6th in the 6-team pools were ranked overall 16th and 17th, using the same criteria (a) to (d) to differentiate between 16th and 17th.
- (3) The statistics for 6-team pools were then re-calculated disregarding all results against the team originally placed 6th in that pool. Again, within what were then all 5-team pools, each team's position within the pool was determined using the same criteria (a) to (d).
- (4) Finally, the rankings from 1st to 15th were determined irrespective of the pool in which each team played. Again - you guessed it - the same criteria (a) to (d) were used.

The rankings from 1st to 17th were used to determine whether teams entered the Cup or Plate competition for the afternoon. The top 11 teams went forward to the Cup, which was split into one group of five teams (Cup I), and one group of six teams (Cup II). The teams ranked 12th to 17th went forward to the Plate, which was a single group of six teams.

The teams with rankings 1, 4, 5, 8, 9, were assigned to play in the group Cup I. The teams with rankings 2, 3, 6, 7, 10, 11, were assigned to play in the group Cup II.

Final rankings were decided as follows:

- (1) The top team from each of the two Cup groups Cup I and Cup II, were awarded final finishing positions 1 and 2. Of these two teams, Liverpool defeated Lancaster in the Cup Final to claim first position and be crowned champions of the Cup Tournament.
- (2) The team finishing bottom in Cup II (the group with 6 teams) was awarded a final finishing position of 11th.
- (3) The remaining teams in Cup I and Cup II were allocated final finishing positions 3 to 10 based on the same criteria (a) to (d) used to rank teams in the morning. Note that in the 6-team group, Cup II, results against the 6th place team, MQL Barbarians, were excluded for these ranking calculations.
- (4) The top two teams from the Plate, were awarded final finishing positions 12 and 13. Of these two teams, Milton Keynes defeated Wirral B in the Plate Final to claim 12th position and be crowned winners of the Plate Tournament.
- (5) The remaining four teams in the Plate, were awarded final finishing positions 14 to 17 simply based on their positions in the table of Plate group matches.

Notes:

- There are likely to be slight inaccuracies in these individual statistics with respect to incorrect interruptions (a.k.a. "negs"), worth -5 points. This is because incorrect interruptions, whilst recorded on the handwritten scoresheets, were not attributed to individual players in a small number of matches. Where this was identified during checking of scoresheets, interruptions have generally been spread amongst the player(s) who recorded most correct buzzes in that match. Whilst this is clearly an estimate, it is not expected to have a large effect on overall statistics.
- The "Highest Individual Scorer" trophy was to be awarded to the player with the highest net points contribution per 20 starters faced, based on all matches prior to Cup and Plate finals, i.e. excluding the Cup and Plate finals. Note that a data entry gremlin (noticed during subsequent checking and corrected above) meant that on the day of the tournament, this trophy was originally awarded to David Hesp. Thank you to David for accepting the amended result with good grace.
- If you notice any errors in the above stats, feel free to report them, although we're not intending to re-issue these tables.
